

The Corps of Engineers has many competent and loyal Park Attendants who collect fees, greet visitors, and monitor use of our campgrounds. This is an excerpt of a 2003 interview with Park Attendants at Littcarr Campground, Carr Creek, KY:

1. How long have you been Park Attendants at Littcarr Campground?

This is our ninth summer

2. Tell us about the campsite that's provided for you, as far as the amenities. Does it have everything you need?

It's wonderful, and we have everything we need.

3. What's your favorite part of being a Park Attendant?

Seeing campers relax and interact with their families in a way that they probably don't at home.

4. If you were making a commercial to encourage others to become Park Attendants for the Corps, what would you say to them?

Willamae: If you like dealing with people, go for it. If you don't, it's not for you...It's a wonderful job that keeps us going, physically, mentally; emotionally...we meet so many wonderful people...

Carl: You have to be able to deal with people. You have to be honest. It helps if you like to camp. Don't do it for the money.

Customer registers and pays his camping fee at the campground entrance station
